Polistina's votes eliminating women's access to health care is a hot button issue, and he's right to be upset that this has become an issue. He voted against it to stay in lock step with the governor. It shows he'll stay in Christie's pocket and won't stand up for the people of our district. I would love for Gormley to come back, but to paraphrase a past political soul, Polistina's no Gormley, not even close. Gormley was no stooge for Trenton.
